## EDUCATION

**Oregon State University** Expected Graduation: June 2027 Corvallis, OR

*Bachelor of Science in Engineering*, Computer Science with AI Specialization and Applied Physics minor

### Relevant Coursework

- **Web Development**
  - Developed a full-stack application using client-server architecture. Created RESTful APIs in Node.js, implemented responsive interfaces, and managed user data flow.
- **Software Engineering I**
  - Collaborated on agile team projects with Git and GitHub. Practiced iterative design, issue tracking, and requirements analysis.
- **Operating Systems I**
  - Learned core OS concepts including processes, threads, scheduling, and memory management. Gained hands-on experience with low-level systems programming.
- **Introduction to Databases**
  - Designed and queried relational databases with SQL. Explored schema design, join, normalization, and data integrity.

**Relevant 2025-2026 Coursework:** Analysis of Algorithms, Software Engineering II, Intro to Artificial Intelligence, Intro to Parallel Programming, Intro to Security

## WORK EXPERIENCE

**Bellingham & Skagit Coding and Robotics Club** Bellingham, WA

Summer Counselor/Instructor Summer 2024 & 2025 | 35 hours per week

- Led personalized robotics and coding classes for 6-13-year-olds, focusing on hands-on technology and robotics projects – taught coding concepts through platforms like MCreator and Makeblock
- Built strong connections with students and parents, managed behavioral challenges and guided students to their learning goals.

**Oregon State University Creamery** Corvallis, OR

Beaver Classic Team Spring 2024 – present | 20 hours per week

- Provided efficient and friendly service to customers in a high-volume environment, developed multitasking skills while scooping ice cream and handling food
- Assisted production operations to ensure smooth ice cream and cheese production process in a team setting

**Lithtex NorthWest** Bellingham, WA

Agenda Collator Team Summer 2023 | 40+ hours per week

- Collaborated in a fast-paced production environment, utilizing time efficiently to meet goals
- Facilitated communication between Agenda Team and Floor Manager, ensuring all materials and equipment were properly stored for a clean, organized workspace

## CO-CURRICULAR AND EXTRACURRICULAR ACTIVITIES

- Society of Women Engineers Fall 2023 to present
- Society of Physics Students Winter 2025 to present
- Seminarium Fall 2025 to present
- User Experience Design Club Fall 2024 to Spring 2025

## SKILLS

### Programming Languages:

Python, C++, C, x86 Assembly, JavaScript, HTML, CSS

### Technical Skills:

Git (version control), GDB & Valgrind (debugging), shell scripting, Linux/Unix command line

### Development Tools:

Visual Studio Code, Visual Studio, Node.js, MongoDB, Unity, GitHub

### Additional Skills:

Microsoft Office Suite, LaTeX, Oregon State Food Handlers Card
